

TECHNICAL DATA SHEET

Transparent ultra-ultra low heat sealable and low COF corona treated one side, for conversion

PRODUCT DESCRIPTION

Chiripal Poly Films HUU is transparent co-extruded both side heat sealable film has one side ultra-ultra low sealing threshold with low COF and other side corona treated. Corona treated surface is specifically designed to provide excellent adhesion of ink and lamination adhesive during conversion. The non treated ultra-ultra low heat-seal and low COF surface have good seal strength and very broad sealing range which gives optimum performance on very wide range of packaging machines. The film exhibits the consistent and improved slip properties.

PRODUCT FEATURES

- Excellent sealing properties and hot tack
- Ultra-ultra low seal initiation temperature
- Excellent antistatic and slip properties
- Excellent printability and suitable for lamination with other substrates
- Excellent optical properties
- Excellent surface treatment retention.

APPLICATIONS

- Single / two ply printing lamination
- Very high speed FFS machine packaging applications
- Flexible packaging
- Confectionery, Bakery and chips packing

*Available in inside / outside corona treated as per customer requirement

SHEET STRUCTURE

TECHNICAL INFORMATION

PROPERTIES	TEST METHOD	UNIT	CB18HI-UUC	CB20HI-UUC	CB25HI-UUC	CB30HI-UUC	CB35HI-UUC	CB40HI-UUC

FOOD CONTACT

Chiripal Poly Films complies with EC and FDA regulations. Specific document and MSDS are available on request.

STORAGE & HANDLING

Chiripal Poly Films do not require special storage conditions. A storage temperature below 30°C & humidity 55±5 % is recommended in order to avoid any deterioration of the film surface properties. Excess humidity and heat can cause problem such as fast treatment decay, film becomes more hazy / slippery which can affect the quality of printing and coating. It is advisable to use the material on FIFO basis. The film should be conditioned in operating environment for 24 hours before any kind of processing. CP-Films is best suitable for use up to 6 months from date of production.

DISCLAIMER

The property given in the technical data sheet do not constitute product specification but represent typical performance values based on the best of our knowledge and believed to be accurate. These are given in good faith but it is for the customer to satisfy of the suitability for its own particular purpose. The user is solely responsible for the end use of the product and needs to perform their own tests to confirm the product suitability / compatibility in all respects. Chiripal Poly Films Ltd. does not guarantee the typical values. Chiripal Poly Films Ltd. reserves the right to change the technical data sheet at any time for enhancing the quality of the products without prior information.
